Mr. James M. Kaul

In Dedication

The journalism class of 1973-74 respectfully dedicates this yearbook to a real Webberite, Mr. James Michael Kaul. Mr. Kaul, 25, attended Webber as a student, did his student teaching from Central Michigan University here, and is in his fourth year as a popular and successful teacher and coach at Webber. While he was an honor student at Webber, he starred in soccer, basketball, and baseball. Webber did not have a football team at the time.

His lovely wife, the former Jennifer Federspiel, also attended Webber as a highly respected all-A student. Both also graduated from Saginaw High School. He is presently taking graduate classes from CMU.

Mr. Kaul graduated from CMU with a major in physical education and a minor in history. He played on the CMU baseball team as a freshman. He has no children, but he does have a pet canary and some tropical fish which he cares for mainly by himself.

In the summer Mr. Kaul plays fast-pitch softball and travels extensively with his wife and team around and about our beautiful Michigan area. His team, Expressway Bar, became the state champions last summer. In the winter he plays basketball in the city league and enjoys playing some hockey. He likes to read best sellers and he is a very fine amateur artist. His own favorite piece of art is his free hand drawing of a hockey player. He also is a great fan of country and western music.

The journalism class is sure that it speaks for all Webberites in wishing Mr. Kaul, a highly capable and dedicated teacher, continued happiness and success.

"FRIENDSHIP"

"Friendship" is a word which truly deals with a lot of different meanings. One definition acquired from the dictionary is two people attached to one another by respect or affection. This is very true in many ways as respecting someone else will surely make them respect you. After a certain amount of time two people build up a relationship between them which will link them as friends almost forever.

A lot of affection and caring is shared between these two people throughout their entire "friendship" which sees as many disasters as it does happy times.

A friend is someone who should be at your side when you are in need and you should be counted on when they are in need of your support. Almost all the time a friend can enlighten your whole life with some kind words and some friendly smiles.

Together you can blend thoughtful moments into one as if your minds were joined concurrent as one. Basically, that is what "friendship" is all about. It is also love and understanding that makes a "friendship" last.

So from now on be dedicated to your friends because without them you would no longer have an enjoyable life. "Friendship" is what life is all about. Yet, it is hard to believe that other people find different definitions, but take some advice and live by this interpretation.
